competence of the Soviet authorities in Germany. The Government of the United States has made its position clear in the Department of State's aide-memoirs of June 20, July 1, and July 3, 1958 and in Deputy Under Secretary of State Murphy's statements to Ambassador Menshikov on July 11, 1958. It wishes to reiterate that the position taken in the Soviet notes of July 2 and 18, 1958 is based on a misconception of the legal and factual situation.

"Soviet responsibility in matters of this sort is fixed by agreement and confirmed by long-standing practice. This responsibility can in no way be affected by any arrangements which the Soviet authorities may make with the local German authorities of the Soviet Zone of Occupation. The Soviet authorities in Germany had, in fact, acknowledged their responsibility in this case by taking custody of the nine men in the first instance.

"The question of the return of the disabled United States Army helicopter remains to be settled. The Government of the United States expects that the necessary and appropriate instructions will be issued to the Commander-in-Chief of the Group of Soviet Forces in Germany, in keeping with the established Soviet responsibility in matters of this sort, to co-operate in making arrangements for a prompt return of the aircraft to United States control."

We contemplate no further action on Governmental level unless Soviets introduce some new element in reply. We do not intend publish note unless some Soviet action makes publication desirable.
